Maximum weight allowed (kg)	2,080
Maximum towing weight without brake (kg)	750
Maximum towing weight w/brake 8% (kg)	1,700
Maximum towing weight w/brake 12% (kg)	1,500

*The accurate range for your vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style. The indicated range has been calculated in compliance with WLTP standards, which set out test conditions applicable to all car manufacturers to ensure the comparability of these tests for all vehicles.
